A beautifully simple js framework
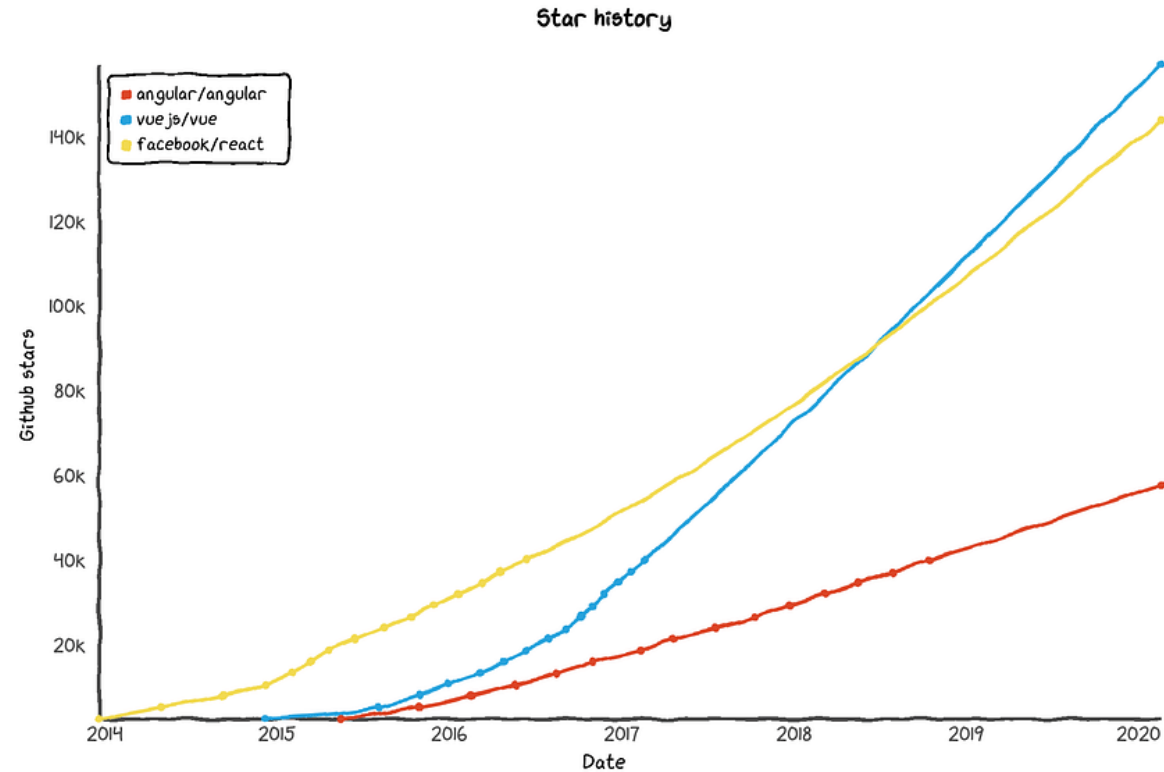

Vue.js

Presented by: Max Vos

Overview Little talking, lot of coding

- Putting it into perspective
- Why it's better then react and the other js frameworks 😉
- Something vue makes very easy
- Let's build an api consumer together

Putting it into perspective

Why it's better then react and the other js frameworks

Pros

- Best documentation out there (even available in chinese)

- Easy to learn

- Late to the game, it picked the good parts of angular and react

- Tiny

Cons

- Risk of over flexibility

Something vue makes very easy
